

Prominent Churchman and Mason Extols Great Body Builder.

Mr. E. D. FOSTER, 83 years old.

Mr. E. D. Foster, of Elkhart, an active Methodist 40 years, prominent in Temperance and Masonic Circles in Indiana, who is 83 years old, expresses his convictions on the world's greatest tonic and stimulant.

Recently Mr. Foster wrote: "I have felt for some time that I ought to let you know what your medicine has done for me. I have been using Duffy's Pure Malt Whiskey for a year. My son from New York City was visiting me and gave me a bottle of your medicine. It commenced to restore my strength at once. I use it every day now."

"I can do a good day's work in the blacksmith shop at the age of 83 years, and I attribute this to three table-spoonfuls of Duffy's Pure Malt Whiskey a day. I have taken no other medicine. Duffy's Pure Malt Whiskey is a wonderful builder for an old man."

"I have been a member of the Methodist Church for over 40 years and believe in the temperate use of all good things."

Men and women in all walks of life testify to the great good derived from the world's great medicine.

Every testimonial is guaranteed genuine and is published in good faith with full consent.

Duffy's Pure Malt Whiskey

is an absolutely pure distillation of malted grain, great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system; is a promoter of health and longevity; makes the old young and keeps the young strong.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only; never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Write Consulting Physician, Duffy Malt Whiskey Co., Rochester, N. Y., U. S. A., for free illustrated medical booklet and free advice.

APPROPRIATION BILL FINISHED

Salary of President of
Board of Health
Cut to \$150

HOUSE

37th Day—Afternoon Session

Work on the appropriation bill was concluded yesterday afternoon about 6 o'clock by the House Committee of the Whole, and the bill is now ready to pass its third reading and go to the Senate.

The measure as finally decided upon contemplates turning over to the Counties a large share of the functions of government at present coming under the Territory, including water works and sewers, district court houses, jails, and hospitals, wharves and landings, and sanitation. It also contemplates combining the land and survey departments under one head.

It was at first proposed to turn over also the work of the Board of Health and the medical and quarantine service, but the announcement of this plan aroused such a storm of protest from the business interests of the community that those back of it were glad to drop the scheme hurriedly.

The session yesterday afternoon was a stormy one and some of the most fearful and wonderful speeches that have ever been heard, even in the House of Representatives of the Territory of Hawaii, were made. Kaniho, Kinney, Kalelopu, and Kamahu particularly distinguished themselves in the discussion over the bacteriologist, whom it was finally decided to cut off the salary list. Kaniho fairly outdid himself in foolishness, objecting loudly to appropriating any salary for this official, of whom he said the Hawaiian people are afraid because he cuts and slashes them. Kinney made an even more idiotic speech, insinuating that the bacteriologist inoculates people at the Kaili receiving station with the germs of leprosy. Kamahu and Kalelopu engaged in a warm discussion as to whether or not germs have wings and can fly. The wisdom of these actions finally prevailed and the committee voted to eliminate the bacteriologist.

The salary of the President of the Board of Health, which is now \$275 a month, was cut down to \$150 on motion of Rice. When he made the motion there was a wild chorus of "Kokus."

Coney supported the motion, saying that the department needs a business head and that a Federal official had been found who was willing to take the position, in addition to his present job, at a salary of \$150 a month. Possibly Sinclair.

Rice stated that he had been told by the Governor that Mark Robinson, the present incumbent, did not care for the position and had been begged and begged to hold it up to the present time. The Governor stated that he could get another good man for \$150. If that is the case, said Rice, the people are lucky; they will get off \$125 cheaper. Of course, it could not be told whom the Governor will appoint until he sends the name down to the Senate for confirmation.

Purtado had the bright idea of cutting the salary out entirely and making Secretary Mott-Smith president ex officio of the Board of Health, but Rice reminded him that Mott-Smith is a Federal official and is not subject to the orders of the Legislature.

Kamanoulu moved to strike out the item for the president of the Board of Health, but the motion got no farther. Rice suggested to cut out the items for all employees of the Board and to appropriate a lump sum. Shingle moved to appropriate a lump sum of \$21,760 for the Board of Health, exclusive of the salary of the President. After a long and noisy discussion this carried.

All items under the head of sanitation were stricken out, it being proposed to turn this over to the Counties.

When the item for salary of the bacteriologist was taken up, Kalelopu promptly moved to strike it out. He didn't like Dr. McDonald, and didn't think the Doctor knew his business. Why, he said, Dr. McDonald admitted two years ago that he had never attended a school of bacteriology. "We have no such thing as a bacteriologist in the Territory," Kaniho also wanted him cut out, "because he doesn't know his business."

A long squabble ensued, the result finally being that the bacteriologist was left in the bill. But this did not last, for later on the committee came back to the same item and cut it out after a long session of the most ridiculous speeches ever heard in the House.

During the course of one of the debates Moanauhi jumped up and objected vigorously to having the Governor dragged into discussion. It is the Governor says this and the Governor says that, he objected. "The Governor is not a member of this

NO PARTY LINES IN TARIFF TALK

Each Congressmen Will
Look After Needs
of District

Washington, March 18.—That party lines will be eliminated during the consideration in the House of the Payne tariff bill was indicated by the action of Representative Broussard of Louisiana in withdrawing today from the meeting of the minority committee members because he differed from their views on the tariff. With few exceptions each member will fight for the interests of his home district.

There is little prospect of a lengthy general debate and the consideration of the measure under the five minute rule for the amendment will be proceeded with as soon as possible, probably by the end of this week.

Wool Schedule Opposed.

Unless "gag" rule for the prevention of unlimited amendment under the five minute rule is brought in the minority members of the Ways and Means Committee will not report a separate bill. Their report will be drafted by Minority Leader Champ Clark and will severely criticize the wool schedule.

The inheritance tax, Philippine free trade, internal revenue and maximum and minimum features of the bill are endorsed by the minority leader, and there has been much favorable comment upon the measure by Democratic congressmen. Champ Clark today declared that he had not had sufficient time to look into its provisions to enable him to comment upon them.

Fight Over Philippines.

It is understood that the minority leaders favor the removal of the restrictions upon the quantity of sugar and tobacco that can be admitted from the Philippine islands free of duty. On the other hand, several Southern Democrats are endeavoring to have the free trade provisions amended so as to exclude rice.

A number of Democrats will join with some Republicans in an effort to keep the duty assessed by the Dingley bill upon lumber. The fight for free lumber will be headed by Champ Clark, it is understood.

It is thought there will be no serious opposition to the tariff on tea.

The Ways and Means Committee estimates that the entire revenues to the government for the fiscal year 1910, provided the Payne bill is in operation, will be \$862,065,885. The amount for which revenue will be required for 1910 is estimated at \$872,221,701.

Lead Rate Restored.

The tariff bill continues the present duty of 1½ cents per pound on the lead in all lead-bearing ores. It had been reduced by the committee to 1 cent a pound, but at the last minute before the introduction of the bill the old rate was restored. This was done after Payne's statement had been prepared, and this fact accounts for a misstatement regarding the duty as it stands in the new bill.

REAL PROPERTY LAW WILL BE SPECIALIZED

Attorney Philip Weaver has formed a partnership with Attorney J. A. Magoon and will branch out in a specialty that has not been given much attention hitherto. The new firm will do a general law business but will specialize on real property law and land registration. Judge Weaver has made a study of this department of law and his experience as the judge of the Land Registration Court is invaluable. The new firm will fit up offices in the ground floor of the Magoon block on the corner of Merchant and Alakea streets modernly equipped in every respect.

THE IWALANI returned this morning from Honolulu, having as her cargo 4736 bags sugar, 272 bundles hides, 2 bundles sheep skin skins, 3 barrels tallow, 103 empty wine barrels, 11 packages sundries.

THE CLAUDINE arrived this morning from Hawaii and Maui, bringing 890 railroad ties, 27 packages hides, 82 packages empty bottles, 21 hogs, 145 packages sundries.

House and we don't want to be told all the time what the Governor says or what the Governor thinks."

The expected row over the leper question seems to have been indefinitely postponed, for Kaniho, who was billed to star in that play, has in some way been called off and it is stated that he is now "all right" on the question. He even submitted yesterday to having his own leprosy bill tabled, giving his consent to the Health Committee to bring in a report recommending such disposition of the measure.

The House before going into Committee of the Whole voted to sustain the Governor's veto of Sheldon's bill providing for the appointment and pay of attorneys to defend impecunious prisoners charged with felonies.

Have You Any

REAL ESTATE

To Sell

?

MORE THAN 6000
people in Honolulu read the EVENING BULLETIN every day.

Don't you think that you could make a sale by calling your bargain to the attention of this large number of people? Certainly if you write the right sort of an advertisement and have the right sort of a bargain, the BULLETIN will find you a buyer. If you wish to advertise, the rates are 1 cent a word. For display space in any part of the paper, 10 cents an inch per day on yearly contract.

TAFT'S SHORT TARIFF MESSAGE

President Taft's first message to the United States Congress is given in full as follows:

"To the Senate and House of Representatives: I have convened the Congress in this extra session in order to enable it to give immediate consideration of the revision of the Dingley tariff act. Conditions affecting production, manufacture and business generally have so changed in the last twelve years as to require a readjustment and revision of the import duties imposed by that act. More than this, the present tariff act, with the other sources of government revenue, does not furnish income enough to pay the authorized expenditures. By July 1, next, the excess of expenses over receipts for the current fiscal year will equal \$100,000,000.

"The successful party in the late election is pledged to a revision of the tariff. The country, and the business community especially, expect it. The prospect of a change in the rates of import duties always causes a suspension or halt in business because of the uncertainty as to the conditions to be made and their effect. It is therefore of the highest importance that the new bill should be agreed upon and passed with as much speed as possible consistent with its due and thorough consideration. For these reasons, I have deemed the present to be an extraordinary occasion within the meaning of the constitution, justifying and requiring the calling of an extra session.

"In my inaugural address I stated in a summary way the principles upon which, in my judgment, the revision of the tariff should proceed, and indicated at least one new source of revenue that might be properly resorted to in order to avoid a future deficit. It is not necessary for me to repeat what I then said.

"I venture to suggest that the vital business interests of the country require that the attention of the Congress in this session be chiefly devoted to the consideration of the new tariff bill, and that the less time given to other subjects of legislation in this session the better for the country."

"WILLIAM H. TAFT."
